

AMIT B NAIK

Software Engineer | Full-Stack & Android Developer | AI/ML Enthusiast
Bengaluru, Karnataka, India | +91 8904340847 | amitn8996@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science & Engineering graduate (VTU) with hands-on experience building REST APIs, Android applications, and AI/ML systems, including Retrieval-Augmented Generation (RAG) pipelines and semantic search. Proficient in Python, Java, and Kotlin, with practical experience across the full SDLC using Git and Agile workflows. Targeting Software Engineer, Full-Stack, and Android Developer roles.

TECHNICAL SKILLS

Languages: Python, Java, Kotlin, JavaScript, SQL

Frameworks & APIs: Flask, Node.js, REST APIs, JWT Authentication, Jetpack Compose, Android SDK

AI/ML: Generative AI, RAG Pipelines, TensorFlow, FLAN-T5, Mistral, FAISS, Machine Learning Fundamentals

Databases: MySQL, MongoDB, SQLite, FAISS (Vector/Semantic Search)

Core CS & Practices: Data Structures & Algorithms, Object-Oriented Programming, SDLC, Agile Methodology

Tools: Git, GitHub, Android Studio, VS Code

WORK EXPERIENCE

Android App Developer (Gen AI-Assisted Development) — Mindmatrix, Bengaluru Feb 2026 – May 2026

- Used generative AI tools to accelerate code generation, feature prototyping, and technical documentation, cutting development turnaround time across the SDLC.
- Built and optimized native Android applications in Java and Kotlin using GenAI-assisted development and structured debugging, improving code quality and reducing defect rate.
- Designed responsive, accessible UIs following Material Design guidelines; integrated REST APIs and tuned local data storage for improved app performance.

Generative AI & Machine Learning Intern — SystemTron Feb 2026 – March 2026

- Developed and implemented Generative AI and Machine Learning solutions using Python, integrating AI models and data-processing techniques to solve practical problems.
- Applied machine learning workflows including data preprocessing, model training, evaluation, and prediction while gaining hands-on experience with AI/ML development and deployment concepts.

KEY PROJECTS

AI Business Advisor — Intelligent Startup Guidance System — Python, Flask, TensorFlow, FLAN-T5, Mistral, FAISS, RAG, MongoDB

- Architected a Retrieval-Augmented Generation (RAG) pipeline combining FLAN-T5 and Mistral LLMs to retrieve and synthesize context-aware business insights from structured knowledge data.
- Engineered a Flask + MongoDB backend with FAISS-powered vector/semantic search, improving retrieval relevance and reducing query response latency.

Adventure Tourism Booking System — Full-Stack Web Application — Python, Flask, MySQL, REST APIs, JWT Auth, HTML, CSS, JavaScript

- Developed a full-stack booking platform on a MySQL-backed relational schema, enabling secure authentication, real-time booking tracking, and automated reporting.
- Implemented RESTful APIs with JWT-based authentication and Role-Based Access Control (RBAC), securing data access across multiple user roles.

Namma-Platform — Kannada-First Android Railway Assistant — Kotlin, Java, Android Studio, Jetpack Compose, SQLite, Text-to-Speech

- Built an offline-first Android assistant backed by structured SQLite data, delivering accurate, low-latency train information without network dependency.
- Integrated Kannada Text-to-Speech and accessibility-first design informed by user-needs analysis, improving usability for rural, elderly, and visually impaired users.

EDUCATION

B.E. — Computer Science & Engineering

2022 – 2026

Anjuman Institute of Technology and Management, Bhatkal | VTU Affiliated | CGPA: 7.5

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Certified: Fabric Data Engineer Associate — Microsoft
- Agentic AI Certified Foundations Associate — Oracle University
- Career Essentials in Generative AI — Microsoft and LinkedIn (LinkedIn Learning)
- Tata GenAI Powered Data Analytics Job Simulation — Forage
- AI Fluency: Framework & Foundations — Anthropic
- Java Full Stack Development Certification — QSpider
- Introduction to Cybersecurity — Cisco
- Python Complete Course for Python Beginners — Udemy
