

AMIT B NAIK

Software Engineer | AI/ML & Full-Stack Developer | Python, Java, Generative AI
Bengaluru, Karnataka, India | +91 8904340847 | amitr8996@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Computer Science & Engineering graduate (VTU) skilled in Python, Java, and Kotlin, with experience across the SDLC building REST APIs, backend systems, and Android applications. Hands-on in Machine Learning and Generative AI, including Retrieval-Augmented Generation (RAG) pipelines and SQL-based data workflows, using Git and Agile development practices.

TECHNICAL SKILLS

Languages: Python, Java, Kotlin, JavaScript, SQL, C, C++

AI/ML: Machine Learning, Generative AI, RAG, LLMs, TensorFlow, Scikit-learn, FAISS (Semantic Search), Pandas, NumPy

Backend/Web: Flask, REST APIs, API Integration, Streamlit, Node.js, JWT Auth, HTML, CSS

Android: Android SDK, Jetpack Compose, Android Studio

Databases: MySQL, MongoDB, SQLite

Tools: Git, GitHub, Docker, VS Code, Plotly, Joblib

PROJECTS

AI Business Advisor — Intelligent Startup Guidance System — Python, Flask, TensorFlow, FLAN-T5, Mistral, FAISS, RAG, MongoDB

- Architected a Retrieval-Augmented Generation (RAG) pipeline integrating FLAN-T5 and Mistral LLMs to retrieve and synthesize context-aware business insights from structured knowledge data.
- Engineered a Flask and MongoDB backend with FAISS-powered vector/semantic search, improving retrieval relevance and enabling low-latency query responses.

Fraud Lens — Fraud Detection & Risk Analysis Platform — Python, Scikit-learn, Pandas, NumPy, Streamlit, Plotly, Flask/API, Joblib

- Engineered a machine learning-based fraud detection platform using Scikit-learn to analyze transaction data and classify potentially fraudulent activity.
- Built an end-to-end data-processing and prediction workflow with Python, Pandas, and NumPy, covering preprocessing, feature handling, and fraud-risk classification.
- Designed an interactive Streamlit dashboard with Plotly visualizations, enabling real-time exploration of fraud patterns and model predictions.
- Integrated a Flask/API backend to connect the prediction engine with the application interface, and used Joblib to serialize and deploy trained models, streamlining inference.

Namma-Platform — Kannada-First Android Railway Assistant — Kotlin, Java, Android Studio, Jetpack Compose, SQLite, Text-to-Speech

- Built an offline-first Android assistant using Kotlin, Java, and structured SQLite data, delivering accurate, low-latency train information without network dependency.
- Integrated Kannada Text-to-Speech and accessibility-first design based on user-needs analysis, improving usability for rural, elderly, and visually impaired users.

EXPERIENCE

Android App Developer (Gen AI-Assisted Development) — Mindmatrix, Bengaluru

Feb 2026 – May 2026

- Leveraged generative AI tools to accelerate code generation, feature prototyping, and technical documentation, streamlining development turnaround across the SDLC.
- Built and debugged native Android applications in Java and Kotlin using GenAI-assisted development, structured testing, and Material Design guidelines.
- Integrated REST APIs and optimized local data storage, improving app performance and UI responsiveness.

Generative AI & Machine Learning Intern — SystemTron

Feb 2026 – Mar 2026

- Developed Generative AI and Machine Learning solutions in Python, integrating AI models and data-processing pipelines to solve practical problems.
- Applied end-to-end machine learning workflows — data preprocessing, model training, evaluation, and prediction — gaining hands-on experience with AI/ML deployment concepts.

EDUCATION

B.E. — Computer Science & Engineering

2022 – 2026

Anjuman Institute of Technology and Management, Bhatkal | VTU Affiliated | CGPA: 7.5

CERTIFICATIONS

- Microsoft Certified: Fabric Data Engineer Associate — Microsoft | Agentic AI Certified Foundations Associate — Oracle University
- Career Essentials in Generative AI — Microsoft & LinkedIn Learning | Tata GenAI Powered Data Analytics Job Simulation — Forage
- AI Fluency: Framework & Foundations — Anthropic | Java Full Stack Development Certification — QSpider
